Summary

A dedicated and results-oriented software engineer with a deep-seated passion for front-end development, I am committed to excellence in my craft. My approach is one of unwavering dedication, where I consistently strive to exceed expectations and deliver superior results. With every project, my goal is to engineer solutions that are not only effective but also innovative and scalable. Leveraging a strong foundation in the latest front-end technologies and best practices, I aim to contribute to a dynamic team where I can continue to grow, create impactful user experiences, and drive the success of the product.

TECHNICAL SKILLS

- React Js
- Next Js
- Context API
- REST API Integration
- React Redux- State Management
- MobX- State Management
- JavaScript
- ES6
- DOM Manipulation
- HTML
- CSS
- Git/Github for version control

EXPERIENCE

Int+ Technology, Lagos_ Frontend Developer_ Remote
November 2023 - Present.

- Plays a key role in the development of **Waitr**, a communication platform bridging restaurants and customers using Next.js framework.
- Led a mini-team in the creation of the **Merchant** section of the platform, ensuring alignment with project goals and timelines.
- Translated design interfaces into interactive and responsive web pages, enhancing user experience and engagement
- Fosters effective collaboration within the team, facilitating task delivery and ensuring coherence in project outcomes
- Engages in regular communication and coordination with team members to streamline workflows and optimize productivity
- Integrated REST APIs to power various functionalities of the platform, enhancing its robustness and scalability
- Ensured seamless interaction between frontend components and backend systems, optimizing overall performance and functionality

**Decode Institute of Technology, Ibadan _ Frontend Developer (Intern)_ Remote
November 2023 - Present.**

- I collaborate closely with backend developers to integrate APIs, ensuring seamless functionality and user experience.
- Design and implementations of Online Streaming Learning platform.
- I optimize user interfaces according to specific design specifications.
- I focus on creating responsive, user-friendly, and visually appealing User Interfaces.
- I develop and maintain web applications using React js.
- I implement dynamic and interactive web components.
- I regularly learn new concepts and techniques to enhance my development skills.

**DIGITMONI ACCADEMY , ENUGU_ Frontend Developer (Intern)
April 2023 - July 2023**

During my tenure as a Frontend Developer Intern at DigitMoni Academy, I honed my front-end development skills through active participation in several key projects. My contributions and achievements included:

- **Collaborative Project Development:** Played an integral role in a team of talented developers to bring to life an online blogging platform tailored for software development enthusiasts.
- **Product Development:** Contributed to the development of an ECommerce System, focusing on creating an intuitive and user-friendly interface that enhances user engagement and satisfaction.
- **Code Quality Assurance:** Ensured the delivery of high-quality code by performing thorough code reviews and maintaining a high standard for unit and functional testing, leading to reliable and maintainable applications.

**BootCamps, Online _ Trainee
November 2022 _ April 2023**

Engaged in comprehensive hands-on training through multiple bootcamps and online courses such as w3schools, Udemy, youtube et c. to solidify my expertise in front-end development. My focused learning trajectory included:

- **Immersive Learning:** Participated in rigorous web development bootcamps with an emphasis on front-end technologies, enabling me to build a strong foundational skill set in web development.
- **Project-Based Experience**: Completed several practical projects that simulated real-world applications, enhancing my problem-solving abilities and understanding of user-centric design principles.
- **Technical Proficiency**: Developed proficiency in a wide array of front-end tools and frameworks, including **HTML, CSS, JavaScript** through structured coursework and self-directed practice

PROJECTS

- **Finance Application:**
  Link: https://fintrack-rj8e.onrender.com/
  Technologies Used: React TypeScript, Tailwind-css
  Developed a React TypeScript finance application where one can search for companies, company's income, balance sheet and cash flow statement for the said company.

- **Shopping Cart Application:**
  Link: https://659898267241e36dfd626d13--spiffy-otter-ec23c8.netlify.app/

Technologies Used: React, HTML, CSS

Developed a full-featured e-commerce shopping cart application. Designed to replicate real-world online shopping experiences, the application features product listings, cart functionalities, and checkout processes.

- **API Consumption with React JS**
  Link:https://www.github.com/PerpetualOgechi/React-Fetch-API
  Technologies Used: React JS, REST APIs
  I created a React application that demonstrates the capabilities of fetching and displaying data from RESTful APIs.

- **Real Estate Listing Platform**
  Link:https://65974e47f4cd525aa37eb22e--stunning-clafoutis-22a1c1.netlify.app/
  Technologies Used: React, Styled-Components.
  Conceived and developed a real estate listing web application using React.
  Implemented a modern, responsive UI with Styled-Components for a refined and cohesive design. The platform allows users to search and view property listings, with detailed filters to refine their search results.

EDUCATION

NATIONAL OPEN UNIVERSITY (NOUN)— BSc. Computer Science (In view)
2024/2025 session

- **Future Commitment:** Actively preparing to pursue a BSc. in Computer Science to deepen my theoretical knowledge and technical expertise.
- **Relevant Coursework:** Plan to engage in coursework covering algorithms, data structures, software engineering, and system programming, among others, to complement my practical skills.
- **Professional Development**: Eager to participate in university-led research projects, coding workshops, and tech clubs to broaden my understanding and network within the tech community.
